President's Message

Well, our 2nd Annual Larz Anderson Lawn meet is over and once again it was another one for the record books. Our membership and sponsor came through with not just a great car show but a very memorable social event. First of all - the cars were spectacular!!!! The quality level of the cars was amazing.

The Boston Northeast Region AACA

A Chapter of the Antique Automobile Club of America

Second and most important - I want to give thanks to all our club members who worked the show with us and made it a huge success. I'm sure all of our readers have had their turn helping put one of these events together so you know the amount of hard work and dedication this takes. I want to also thank the show workers for bearing with me and wearing the blue East Boston Savings Bank T shirts throughout the day. Although we didn't quite make the show car number from last year, we should realize that there were at least two other major (and close by), "free" car shows that day.

The highlight of day for me was when I first met with the sponsor. His comment was "For a minute I thought you had put the EBSB tent in the wrong location on the field, because of all the blue EBSB T shirts I saw around the Bean Pot Club Tent" and on the field." Great weather was also with us once

again with good sun and very moderate temperature. We were able get the cars onto the show field and parked quickly thanks to Norm Stanton's efficient team. I think he must have been a drill sergeant in a previous life!

The parking was a breeze this year with Doug Reinbold's team taking command of the field. Judging this year was actually completed and ready for announcement a half hour early (yes - I said early) thanks to Stan Vandervoot and Bill Pappas. All of us on the Managing Committee agreed after the show that hiring the DJ was a very good investment. His announcements were very professional and he had very good equipment. Combining all of the above team efforts the trophies and prizes were started right on time and completed right at 1:30. That was also a new record and a big achievement.

I also want to point out that both 50/50 raffles were very successful in generating revenue for the club, the Autism Foundation and 2 very happy show attendees. Our thanks to Dr. Steve Rondeau for being our "raffles guy" and our best ticket sales achiever. He also donated a restaurant gift certificate which was most appreciated. I could go on and on with show stories like mentioning how great it was to have guys like Ed Rogers attracting crowds of people around his masterful home brewed scale engines. Instead, I will now keep short and say "Yes - we have confirmed next year's show with the Museum and yes - just wait till next year it's going to be even bigger and better!"

On a more serious note: You may have heard rumors that I will be stepping down as president of the region at the end of the month. I would like to confirm that I will be in fact stepping down. I have been working with the Managing Committee for a couple months to make this happen. Unfortunately, my personal life and obligations have contributed to this decision. Although I will continue to maintain my membership and help whenever and wherever I can, I must reluctantly move ahead with this decision. It has been a great 2 1/2 years and I have made many new friends and worked with some really great individuals. It has been gratifying to go from an idea, to plans and now seeing the Region grow and beginning to mature with very close to 100 members. Now it's time for someone new to bring more new ideas and challenges to the table. The Managing Committee will be announcing more details on this over the coming weeks and meetings.

Here's a little good news! We made it into National print! Check out the latest AACA National Antique Automobile magazine and you will find our write up on the Fall "Little Red Schoolhouse Meet". Although late in coming, it did get printed and thanks to John Burns the pictures were great!

Sam G

Thank You - Sam Gagliano!

The Bean Pot Managing Committee regrettably accepted Sam Gagliano's resignation as President of the Bean Pot Region at the committee meeting on June 30th 2014. Due to other commitments, Sam feels he will not be able to devote the necessary time to the position. For those of you that don't know, some of the duties that Sam has performed are maintaining the membership database, writing meeting & show notices and recaps for both the website and newsletter. The newsletter job included writing articles, printing, processing and mailing the newsletter. He also guided the formation of the club with constant liaison with the AACA National Region, and led the region in sponsoring 3 successful car shows.

Without Sam's guidance and leadership, the Bean Pot Region would not be nearly as far along as it is. Remember that we had our initial general membership meeting just over 2 years ago in May of 2012.

Recap Membership Get Together - NE Ford V8 Club Show

Recap - April 27th, 2014

The New England Early V8 Club's Show and Swap Meet is usually the first major show of the season. The turnout was down a bit from most years due to the weather and a date conflict with the Amherst, NH show. The Bean Pot Region's Tent was set up and manned by Dan Cullinane and Sam DeMarco on a cold morning with intermittent drizzle, many winter jackets, hats and gloves were seen.

Flyers for the Larz Anderson Show were passed and handed out during the morning. Many members stopped by and said hello. Dan & Sam were relieved by Bill Pappas and John Burns so they could have a chance to view the show.

A good deal of positive feedback about the Larz Anderson show was received. Many thanks go to Dan, Sam, Bill and John for helping out the club with the event.

Recap -CTONE Whitehall Restoration Visit – Invitational

June 28th, 2014 Recap

Although it was not posted in the newsletter due to a timing issue, about a dozen members attended the invitational event by CTONE (The Classic Thunderbird Club of New England) at Tom White's restoration facility. Tom gave an in-depth history of a 1957 Dual Ghia convertible that is in the final stages of restoration. Attendees were also given a glance at a unique 1947 Chrysler Town & Country Roadster under going the finishing touches of restoration. The event was well worth the effort, just to view the flawless restoration of these two vehicles.
